Magnet Mount Installation Instructions

1. Antenna Adapter Required (Sold Separately)

In order to attach your antenna to your cell phone, you will need an adapter. The adapter connects the phone to the antenna cable and transfers signal to and from the antenna. If you need help locating an adapter for your phone, call Wilson toll-free at 1-866-294-6996.

2. Installing the Magnet Mount Antenna

Attach the Magnet Mount Antenna to any metal area on top of the roof of the car. The best location is clear of obstacles and as high on the vehicle as possible. Although small, the rare earth magnet is quite strong and won't fall off at high speeds. Make sure the area under the magnet is clean so as not to damage the vehicle's paint and to ensure a strong connection. Bring the cable into the vehicle through a door that can then be closed. Connect the Magnet Mount Antenna's cable to the Adapter Cable.
